New VENT-MAX™ TWO-SIDED GRILL VENTILATION SYSTEMS

Model CV1L & CV1R

Vent-Max™ Two-Sided Grill Ventilation Systems

Features/Benefits:

- ★ Vent-Max™ Ventilation System provides flexibility in foodservice equipment layout.
- ★ Designed for Star Grill Express and Pro-max 10" two-sided grills.
- ★ Vent removes smoke, grease-laden air, moisture and odors, improving the environment for kitchen staff and patrons.
- ★ Allows enough room to fully raise tops of Star Grill Express and Pro-Max 10" two sided grills.
- ★ Cleansed air recirculates through multi-directional louver in base.
- ★ Easy cleaning, no tools required to replace filters.
- ★ No installation. Minimal assembly required.
- ★ Exterior dimension: 26"W x 29 3/4"D x 31 1/4".
- ★ Standard 120V Power.
- ★ *Pro-Max GR14 and CG14 models require 4" front base extension accessory.*
- ★ *Pro-Max GR28 and CG28 models require 4" front base extension and two 2" side extension accessories.*

Model CV1L

Applications:

Vent-Max™ Ventilation System is a countertop ventilation system for small appliances located outside the range of a kitchen ventilation hood. Vents go *anywhere* with access to standard 120V power. Special air capture hoods designed to handle odor, grease and smoke produced by different appliances.

Quality Construction:

Stainless Steel body. Angled baffle grease filter, cleanable and reusable. Electrostatic material particulate filter to remove smaller particles in the air- disclosable. Removable grease collection container. No instillation. Minimum assembly required. Unit must be placed on a level surface and is furnished with adjustable feet.

Warranty:

Vent-Max™ Ventilation System is covered by Star's one year parts and labor warranty. Excludes filters.

QUALITY MANAGEMENT SYSTEM CERTIFICATION ISO 9001:2000
